**STIPULATION AND ORDER REGARDING OBJECTIONS ASSERTED IN
RESPONSES TO REQUESTS FOR PRODUCTION**
[Filed With the Discovery Master]

The parties, Alaska Rent-A-Car, Inc., Cendant Corporation, et al., by their respective counsel, hereby stipulate as follows:

(1) For all past responses to all sets of requests for production that have been served in this case, either (a) the requests have been properly responded to and the documents that are responsive, after a reasonably diligent search, have been produced and, if any additional documents are found that are responsive, they will be produced without delay; or (b) as to document requests that will be specified by April 17, 2006, the identifying parties contend they were unable to respond because these particular requests were unduly vague and ambiguous and, accordingly, the parties have not produced any documents in response. As to those requests in subsection (b), the parties shall clarify their requests. As to those requests in subsection (b), the parties preserve their other objections and their right to interpose additional objections.

(2) If the clarification process does not result in production in response to the request for production, then a hearing may be scheduled with the Discovery Master to address the issue.
